Country Wildlife Sites (CWSs), Sites of importance for Nature Conservation (SINCs), Biological Notification Sites (BNSs) and Regionally Important Geological/Geomorphological Sites (RIGS), are not shown in this Local Plan, although the Council will consider their inclusion in a future Local Plan through the appropriate procedures once the County Wildlife Sites and RIGS studies are complete. In the interim, site information on CWS, SINCs, BNSs and RIGS is available from the Environmental Records Office at Buckinghamshire County Council, and Policy L9 will be used to protect sites of substantive nature conservation and geological value
