

## Appendix E. Junction layout details

This appendix compiles the details of the junctions assessed within this study. It also determines whether they are existing, re-designed or a new junction, as well as their location on the map. The following figures reveals the junction arm names used within the model results. Details are provided for the following junctions:

- Shootacre Lane / A4010 Junction (OS Grid Reference 480691; 201483)  
Existing T-junction
- Summerleys Road / Sumitomo access Junction (OS Grid Reference 479963; 203155)  
New junction
- Lower Icknield Way / Longwick Road Junction (OS Grid Reference 479424; 204605)  
Existing roundabout junction
- Mill Lane / A4010 Junction (OS Grid Reference 481475; 204632)
