

Community Cop Cards sticker information:

Citizenship

Purpose– This sticker is designed so that the children find out more about their community and their role within it.

Approach– The worksheet (see below) helps the children have a better understanding of the different cultures and diverse community they live in.

Tasks to complete to receive the sticker- The class has two options in order to earn a sticker. A worksheet (see below) has been developed to give the pupils an understanding of their role in the community and how to be a good citizen. Another option is a workshop delivered by the local Community and Diversity Officer (CADO), discussing citizenship, diversity and multiculturalism.

Resources to use- The worksheet's can be printed off from the Community Cop Card website. The workshop can be organised by the teacher.
