

# Community Cop Cards sticker information:

## Library

**Purpose**– This sticker is designed to encourage the children to use their local library and the resources available through Bucks County Council Library services online.

**Approach**– Many children may be unaware of the fantastic number of free services that local libraries in this County provide. They can access books, free computer sessions, there is a group called “Head Space” for 11 – 19 Year Old’s. Once they have a library card and set up with an online account they can also download free e-books, movies. The Young Adults webpages have a range of information that we would like to encourage pupils to log-on to as well and have a look at.

**Tasks to complete to receive the sticker**- The children will be issued a library card, joining letter or online user ID. Once they have signed up to a library they must take their evidence into school and show this to their teacher in order for them to be awarded a sticker.

### **Resources to use-**

Guide the children to look up their local Library at
