

Wooburn & Bourne End Neighbourhood Area Application

The application

Wooburn and Bourne End Parish Council submitted an application for a Neighbourhood Area on 27 November 2014. The application covered the entirety of the parish council area, and was subject to a consultation under the Neighbourhood Planning (General) Regulations 2012, which ran between 3 December 2014 and 30 January 2015. This consultation period was longer than the minimum six weeks set out by the regulations, to take account of the intervening Christmas and New Year period.

Consultation

The consultation generated a total of 3 responses. Two of these were in support of the application, and the third was noting the application and wishing to be informed of next steps in relation to the Neighbourhood Plan.

Decision

The responses have been considered and noted, but it is not considered that they give rise to objections to the area as applied for or that there are any other substantive issues or grounds for objection to the proposed area. Wycombe District Council has therefore proceeded with designation of the Neighbourhood Area as applied for.
