**Which part of the basic conditions do your comments relate to? (Please tick all that apply.):**

The achievement of sustainable development

We are concerned about the environmental impact of site 17a, as highlighted by the 3 red marks of negative impact assessment in the sustainability report. The addition of 40+ houses in this location will negatively affect the rural character of the area and wildlife, and we would request that the maximum possible mitigation be adopted. In particular, the countryside views and improvements to pedestrian access to support the enlarged community are of concern. We would also like to see measures

**Comments:**

to protect biodiversity. With an enlarged community will also come more children. The road in that location has blind corners and traffic can be fast, so we would request that traffic calming measures be implemented.
