Dear Madam,

I am writing regarding the Proposed Modifications to the Local plan for the Gomm Valley. The proposal is for 1000 dwellings plus shops and a school. This equates to a least 2000 people and 1000 cars and other commercial vehicles serving the occupants. This is a substantial increase compared to the original WDC Local plan. This will lead to a substantial increase in traffic on the surrounding roads which are already under intense pressure. Do we really need shops in the valley when there is a new Aldi supermarket under construction a 10 minute walk from the centre of the valley and M+S Food, Tesco Local and other shops all within an easy walk from the valley. This will erode the living standards of the people already living in the area not to mention the devastating effect on the wildlife of the valley. Please consider these objections and act accordingly.

yours sincerely D. Carter (Miss).
