

## **Matter 2 Written Statement – Mr Timothy Chettle (0261)**

Matter 2 Question 1. I believe that the development of Summerleys Road into a major Relief Road is shortsighted and detrimental to the further growth that this town will need to accommodate in the years to come. The road will quickly become overloaded and be yet another bottleneck on the main Aylesbury / High Wycombe A4010, requiring further expense to alleviate the situation. Adoption instead of a new By-Pass route will eliminate the problems outlined above, and will provide much better traffic flow, access opportunities and safety levels, all in keeping with further housing development at a later date.
