Princes Risborough Sewage Works

Dear Aude

Thank you for your recent emails in relation to Princes Risborough Sewage Works. You have sought clarification as to Thames Water's position in relation to the future upgrade of the Sewage Works and odour neutrality.

I can confirm we will plan the future upgrade to the Sewage Works doing all that is reasonably practicable to ensure that the 3 ouE/m³ odour contour doesn't widen beyond the baseline measurement.

Therefore the future Sewage Works upgrade should not have any additional odour impacts on local residents.

I trust the above is helpful but feel free to give me a call if you wish to discuss further.

Yours sincerely
