Name or Organisation:

1. To which Main Modification does this representation relate? (please put MM reference number)

MM9

2. Please use this box to set out your comments on the proposed Main Modification. Please set out clearly if you support or disagree with the proposed Main Modification and the reasons supporting your position. If appropriate, please set out what further change(s) you consider necessary. It will be helpful if you are able to put forward your suggested revised wording of any policy or text.

Representations have been made to Policy HWTC19 throughout the process. A number of changes have been made to the policy which have been welcomed and supported.

One issue of concern remaining at the Publication consultation stage was in respect to part 3 of the policy as it was not considered appropriate to in any way tie the development of the site to the road. It was acknowledged however that it would be entirely justified for the policy to ensure that any development proposals are consistent with any wider proposals for the new road. Suggested wording for part 3 of the policy was provided to read “If revised access arrangements are required to the site, these should complement and be consistent with the delivery of the strategic town centre vision, and in particular meet the requirement of Policy HWTC3”.

The Main Modifications propose changes to the Part 3 of the policy, and associated text at 3.141. The wording proposed in the Main Modification does not reflect exactly the suggested wording, but the overall nature of the changes address the issues of concern raised in respect to this part of the policy by removing direct reference to the road link.

The Main Modifications are therefore supported.

(Continue on a expand box /separate sheet if necessary)

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations.
