It seems that it is made difficult comment on road changes and I don't use outlook so here is what would I say

Will the road works at the junction of Picks Lane and  
Shootacre Lane

include a pedestrian path for the total length of Shootacre  
Lane, a reduction in the speed limit to 30 mph a speed camera and a community Police patrol to keep the  
pavements clear of parked cars.

PS Police response from personal experience 3 DAYS for break  
in in progress.

I would like to go to the P.R. meeting and I am not a Robot.
