Re: Princes Roberough Expansion

Dear Sirs,

Intern Relief Road.

I would like to suggest that in regard to the safety aspects of Shootacre Lane being used as an interim relief, it would be sensible to install a Vehicle Activated Sign for at least a two month period in the immediate future to assess just how dangerous the Lane currently is for pedestrians, cyclists, horses and dog walkers.

I feel that this initiative would help to address the safety aspects of the project. Currently the speed of most vehicles will exceed the current limits and the amount of traffic using the Lane is increasing substantially.

2.
I believe that this approach has
been used in other locations around the
Princes Runborough area and deserves some
consideration.

I hope this letter will be of
some assistance.

Yours Sincerely
Richard D. Smith.
